ACADEMIC CREDENTIALS

B.Sc. in Mechanical Engineering, Military Institute of Science and Technology (MIST) Apr 2021 – May 2025
CGPA: 3.23 / 4.00

RESEARCH INTERESTS

- Advanced and Smart Manufacturing Systems
- Computational Mechanics and Numerical Modelling
- Data-Driven and Machine Learning Applications in Engineering
- Advanced Engineering Materials and Material Characterization

BACHELOR'S THESIS

Densification of Natural Wood to Improve Structural Properties
Advisor: Major Md. Anisur Rahman, EME, Assistant Professor, ME Dept., MIST

- Studied structural performance of natural, seasoned, and chemically treated–densified wood.
- Investigated three tropical species: *Swietenia macrophylla*, *Albizia procera*, and *Cordia subcordata*.
- Chemical treatment involved NaOH and Na_2SO_3 followed by thermo-mechanical hot-press densification.
- Conducted mechanical, moisture absorption, and SEM analyses following ASTM standards; densified samples showed highest strength.

PROJECTS

YOLO-Based Computer Vision Projects *2026*

- Implemented multiple real-world computer vision tasks using YOLO architectures.
- **Segmentation:** Tumor region segmentation from medical imaging data.
- **Detection:** Industrial safety compliance detection including PPE and safety goggles.
- **Classification:** Object and condition-based image classification using YOLO classifiers.
- **Tracking:** Real-time multi-object tracking across video streams.
- Applied data annotation, model training, evaluation, and inference optimization.
- GitHub

Casting Defect Classification *2026*

- Developed deep learning models to classify casting products as defective or non-defective using real industrial images.
- Evaluated CNN, MobileNetV3, Vision Transformer (ViT), and YOLO-based classifiers.
- Achieved best performance using a YOLO classifier with 99.9% accuracy.
- GitHub

Surface Roughness Prediction in Machining *2025*

- Implemented Linear Regression, Random Forest, Gradient Boosting, SVM, and Decision Tree models.
- Achieved best performance using Decision Tree ($R^2 = 0.85$).
- Analyzed the influence of cutting parameters on surface finish.
- GitHub

Dhaka Wind Speed and Direction Prediction *2024*

- Built ANN, RNN , LSTM and CatBoost models using historical meteorological data.
- Performed feature engineering and comparative model analysis.
- GitHub

Tailstock Die Tool Holder Design and Manufacturing *2022*

- Designed a functional tailstock tool holder using SolidWorks.
- Manufactured the component through lathe machining and validated dimensional accuracy.
- Google Drive

PUBLICATIONS

Conference Papers and Book Chapters

- A. Tahsin, **Md. Maruf Mullah**, et al. *Impact Strength and Moisture Behaviour of Natural, Densified and Seasoned Wood.* ICMEAS 2025 (Accepted).
- Z. Imtiaz et al., **Md. Maruf Mullah**. *Meteorological Drought Prediction Using Forecasting Models.* ICWFM 2025 (Book Chapter – Accepted).

MANUSCRIPTS IN PREPARATION

- I. Alam et al., **Md. Maruf Mullah**. *Effect of Groove Shapes on Microstructural and Mechanical Behavior of Pipe Welds under Post-Weld Heat Treatment.* Manuscript under revision for journal resubmission.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, MATLAB, HTML

Machine Learning & Deep Learning: PyTorch, TensorFlow, Scikit-learn, YOLO (Detection, Segmentation, Classification, Tracking), NumPy

Data Analysis & Visualization: Microsoft Excel, Google Sheets, Pandas, Matplotlib, Seaborn

Simulation Tools: ANSYS, COMSOL Multiphysics

CAD / 3D Printing Tools: SolidWorks, FreeCAD, Anycubic Cobra

Document Preparation: LaTeX, Microsoft Word, Google Docs

PROFESSIONAL EXPERIENCE

Management Trainee Officer (Engineer) — Assessment Program
PRAN-RFL Group, Kaliganj Agro-Processing Ltd. Jul 2025
Kaliganj, Gazipur, Bangladesh (On-site)

- Participated in structured assessment for manufacturing operations and engineering roles.
- Observed production workflow, plant layout, and assisted in machine monitoring.
- Prepared technical and operational reports demonstrating analytical and communication skills.

Mechanical Engineering Intern
IFAD Autos PLC Feb 2024 – Mar 2024
Dhamrai Upazila, Dhaka, Bangladesh (On-site)

- Assisted in vehicle assembly, mechanical fitting, and torque verification.
- Observed quality control procedures and assembly line balancing.
- Gained hands-on exposure to automotive manufacturing systems.

CO-CURRICULAR ACTIVITIES & AWARDS

Government Scholarships
Recipient of Government Scholarship in the **Primary Education Completion (PEC)** Examination *2012*
Recipient of Government Scholarship in the **Junior School Certificate (JSC)** Examination *2015*

Science Fair Champion — Upazila Level, Raipura *2017*
Led a school team to first place by presenting an applied science project.

Bangladesh Boy Scouts — Scout Volunteer *2015–2016*
Served as a scout volunteer at high school, supporting discipline management, event organization, and community service activities.

Volunteer, ICMEAS 2022
Assisted in conference logistics, participant coordination, and technical session management.

Volunteer, Job Fair 2022
Supported employer coordination, registration, and event operations.

Organizing Committee Member, Soccer Bot Competition — MIST *2024*
Contributed to planning, team coordination, and competition execution under MIST Robotics initiatives.

Humanitarian Volunteer *2024*
Engaged in flood relief operations and winter clothing distribution programs.

CERTIFICATIONS

- Machine Learning Specialization (Supervised Learning) — Coursera *2024*
- Neural Networks and Deep Learning (Neural Networks and Deep Learning) — Coursera *2025*
- Mathematics for Data Science — Simplilearn *2025*
- Python Programming Bootcamp — Decoders Academy *2025*
- MATLAB Onramp — MathWorks *2025*
- Git Training — Simplilearn *2025*
- Google Sheets — Simplilearn *2025*
- Project-Based Excel — Grameenphone Academy *2025*
